education drift

With a variety of angles, curves and customisable back styles, Drift allows you to take on the role of designer and be as creative as you wish. Whether you're creating open and communal seating spaces for sharing ideas and socialising, or private zones for focus, work and study, Drift empowers you to do so.

education
geo

The Geo range allows you to create flexible seating arrangements to suit a whole host of environments including school breakout areas, studyspaces and receptions. The Geo range is widely-configurable, so can be rearranged when required to create group spaces for collaborative study, casual meetings and socialising.

vista

education vista

Vista is all about simplicity. The clean edges make this range our most simple to configure, while offering the freedom to create your own seating layout using its 8 unique units.

It can be used to create seating layouts for school breakout areas and studyspaces, and can be reconfigured within minutes.

education booths

Booths create great intimate and collaborative workspaces for uninterrupted focus and concentration, in commonrooms, libraries and staffrooms.

Alternatively, our booth seating can be used in its more traditional settings like canteens and break-out areas.
