Vertical Fluted Back Style

Add detail and style to your seating without the additional costs that come with techniques like chesterfield deep buttoning.

Available as wide flutes (pictured) or narrow.

Shaped Horizontal Fluted Back Style

Shaped Horizontal Flutes add detail and style to fixed seating in the form of shaped foam segment as opposed to the more cost-effective Folded Flutes style

Contemporary Deep Button Back

The Contemporary Deep Button Back style gives the desirable look of traditional chesterfield upholstery, but uses a more modern, cost-effective technique where the fabric is sewn and panelled rather than folded and pleated

Traditional Chesterfield Deep Button Back

Nothing quite makes a statement of quality, style and luxury like hand-crafted chesterfield deep buttoning.
